

AITOR QUILEZ HERRERO

JUNIOR SOFTWARE DEVELOPER | DAM STUDENT |
CAREER TRANSITION TO TECH

PROFESSIONAL PROFILE

Versatile and proactive professional transitioning into the tech industry after 15+ years in cross-sector environments. Skilled in teamwork, project management, and problem-solving, I am currently developing expertise in Multiplatform Application Development (DAM), Python, JavaScript, Front-End and Back-End development, Cloud, CI/CD, and automated testing. Passionate about innovation, digital transformation, and Agile practices, I am eager to apply my transferable skills to contribute to impactful technology projects within dynamic and collaborative tech teams.

ACADEMIC BACKGROUND

09/2024 - Present	Higher Technician in Multiplatform Application Development (DAM)	UNIR
2010 - 2015	1st Dan Krav Maga (mixed martial arts)	CSD (Ministerio del interior)
2010 - 2015	Senior laboratory technician for clinical diagnosis	F.P.E. Marco
2003 - 2005	Senior technician in chemical process industries	I.E.S. Itaca

AI development course	BIG School
Linux Cisco 2025	Netacad // Credly
Python Cisco 2025	Netacad // Credly
JavaScript Cisco 2025	Netacad // Credly
HTML Cisco 2025	Netacad // Credly

TECHNICAL SKILLS AND COMPETENCIES

- Software Fundamentals & Technical Documentation
- Analytical Thinking / Problem-Solving
- Learning Agility / Quick Adaptation (Agile Mindset)
- Teamwork / Cross-functional Collaboration
- Communication Skills (Technical & Collaborative)
- Commitment, Reliability & Continuous Improvement
- Exposure to Cloud Concepts, DevOps Practices & QA Awareness

WORK EXPERIENCE

2015 – 2025 Pharma-Chemical Specialist Operator

- Supervised and managed the solvent recovery area; ensured process control, sales support, and environmental compliance
- Performed laboratory analyses; handled ADR documentation and final product sales
- Executed preventative and corrective maintenance; programmed and operated production machinery
- Implemented process improvements and conducted research for new processes

2011 - 2015 Chemical Specialist Operator

Nurel S.A.

- Managed production operations and process set-points
- Quality control and product supervision
- Machinery programming and process optimization

2009 - 2010 Clinical Laboratory Technician

Laboratorios Dr. Herrera

- Laboratory analyses, sample processing, quality control
- Equipment maintenance and materials management
- Adherence to biosafety protocols

2009 - 2010 R&D Laboratory and Field Analysis Technician

Laboratorios Belmac S.A. (TEVA)

- Research and experimental process management
- Instrument operation and report preparation

2008 - 2009 Quality and Development Specialist Technician

Saica S.A.

- Company Overview: Paper Industry.
- Process analysis, chemical maintenance, quality control
- Production machinery programming and maintenance

2007 - 2008 Chemical & Quality Control Specialist Technician

Soyca S.A.

- Operated and supervised production lines
- Equipment calibration and process improvements
- Product quality control

2007 - 2008 Production Line Manager

Industrias Químicas del Ebro (IQE)

- Managed plant operations for air conditioning and services section
- Controlled boilers and Legionella programs
- Monitored and programmed global section parameters

2005 - 2007 Services & Systems Plant Specialist Operator

Nurel S.A.

- Supervised staff, coordinated tasks, and ensured smooth plant operations and resource availability

PERSPECTIVE

Technology enthusiast transitioning from the chemical industry to software development, combining 15+ years of professional experience with newly acquired technical skills. Currently completing official training in Multiplatform Application Development (DAM) and self-learning emerging technologies. Seeking a challenging role in a dynamic tech environment where I can apply my project management, teamwork, and communication expertise, contribute with innovative solutions, and grow as a software professional.
